The Silicon Valley Program will comprise of an all-expense paid trip to Silicon Valley in California, USA where the winners will get to visit Top Tech Start-ups in the valley as well as an opportunity to meet young tech entrepreneurs. It also comprises a comprehensive mentorship program from Whitehat Jr Expert Mentors so as to enable the student to make the App commercial ready. **2.** The Silicon Valley Trip will happen twice every Calendar year in May and December. **3.** Top Students on the Whitehat Jr Platform who have a unique idea and have created a great prototype will be selected for the Silicon Valley Trip basis the below process. **3.1.** Students who have completed at least a minimum of 40 to 44 Classes will be invited for the Silicon Valley Challenge basis their Project Completion Rate and quality of Project submissions. **3.2.** Students who have been invited for the Silicon Valley Challenge need to submit their Idea along with Working Prototype of the idea latest within 3 weeks of being invited for the challenge. **3.3.** All Silicon Valley Challenge submissions will be evaluated and the Top Submissions will be invited for Silicon Valley Mentorship where they will be getting 4 Free 1 Hour Mentorship Sessions from Whitehat Jr Expert Mentors. **3.4.** The final Silicon Valley Trip Winners will be selected from the pool of Silicon Valley Mentorship Qualifiers by the Curriculum Directors basis the engagement of the student in further refining the prototype and the potential of the App created to be made commercially ready. **3.5.** The Winners for the May Silicon Valley Trip will be announced in the month of February and the Winners for the November Silicon Valley Trip will be announced in the month of August. **4.** The Student along with one of the Parents will be eligible for the Silicon Valley Trip. **5.** Once the Winners are announced, Whitehat Jr will send an invitation to the Parent and it is the Parent's responsibility to apply and arrange for the Visa and confirm the details to Whitehat Jr within a month of receiving the invite.

Profiles of kids selected for Mentorship

HIRANYA RAJANI, Age - 7 yrs
School - Oberoi International School
Sign Language App

Hiranya drew inspiration for the App from her brother who couldn't hear and had been bounded to a wheelchair all his life. Hiranyaa made a sign language app for differently abled children, which translates text written in the App into sign language. It's now being used by handicapped kids in her community and is also used for training normal people in Sign Language.

SHREY SHAH, Age -12 yrs
School - Oberoi International School
Slack for Schools App

Shrey Shah drew inspiration for the App from his Parents who didn't have time to interact with Teachers due to their hectic work schedules. Shrey created an app which connects Students and teachers according to the Grade and Subjects. Teachers can share homework/ assignment link with the students on the App and Students can ask doubts, do group study as well as update the progress of their assignment. His app has been highly appreciated and going to be officially launched with a Private Institution as Slackio App for Schools (inspired by Slack which is used by Fortune 500 companies).

JISHNU BARUAH, Age - 14 yrs
Light Bag App

Jishnu Baruah hails from a village in the hinterlands of Assam which lacks access to quality education. Jishnu came up with an idea to solve the problem that he and other students in the village were facing. They had to carry heavy school bags every day to school which was a 5 Km walk. He created an app which shows the weight of the school bag based on the books that student needs to carry as per timetable updated by Teacher. This helped create more sensitivity among the teachers in Jishnu's school and the school has created lockers for the Students to keep their books. Jishnu is now thinking about implementing this in other schools near his village.

DAY 1

Depart from Mumbai to San-Francisco

DAY 2

Reach San-Francisco and Check-in to the Hotel

DAY 3

Waymo Visit - Expand the horizons of imagination

Tour of the Waymo which was formerly **Google's Self Driving Car Project** to spark creativity and imagination by seeing **next-generation technology and design**

DAY 7

Return from San-Francisco to Mumbai

Frequently Asked Question

Q. What is the criteria used to invite kids for the Silicon Valley Challenge?

A. The kids have to complete a certain minimum number of classes so that they begin to code and debug independently. Usually this happens post Class 40. Apart from this we also check the Project Completion Percentage and the Quality of Project submissions to assess how well the kid has been able to apply the concepts learnt during the classes in well defined as well as open ended project

Q. In case my kid completes all his previous projects, can he still be considered for the Silicon Valley Challenge?

A. Yes. In case your kid completes his projects and we find the quality of the submissions to be good then your kid can be re-considered for being invited for the Silicon Valley Challenge

Q. What is the evaluation criteria basis which you evaluate the Applications which are submitted?

A. We evaluate applications basis the uniqueness of the idea, functionalities/features which have been incorporated, how clean the code is as well as the User Interface. The Applications are evaluated by our Student Success and Curriculum Team and the Top Applications are invited for the next round?

Q. My Kid's application did not qualify for the Silicon Valley Program. Can he re-submit the Application?

A. Your kid can re-submit the Application if it doesn't qualify.

Q. What happens in the mentorship Program?

A. The Mentorship program is conducted by Whitehat Jr expert mentors who are expert coders and have a deep understanding of curriculum and projects. They also have a very good understanding of design and making Apps commercial ready.

The mentorship Program will consist of 4 Free 1 Hour mentorship sessions with our expert mentors who will review the shortlisted Prototypes and give feedback/assignments at the end of the each mentorship session to further refine the Prototype in terms of Scope of Idea, Additional Features in the Application, User Interface, etc

Q. My Mentorship has been completed? What happens after that?

A. You will receive an email from us after completion of your mentorship which will provide a detailed feedback about your kid and his submission. If there is a future scope and business potential for the App, then your kid will get extended mentorship and be among the Top contenders for winning the Silicon Valley Trip

Q. Is the Parent allowed to travel along with the kid to Silicon Valley? Do I have to pay anything additional for the Silicon Valley Trip?

A. The Silicon Valley Trip is an all-expenses paid trip to the Kid who is a Winner of the Trip and one of the Parents can accompany the kid. All Travel, Accommodation and Food costs will be covered. Travel is covered ex-Mumbai. Parent will have to bear the cost of traveling to Mumbai. Also note that Visa/Passport Application fees will have to be borne by you.

Q. When does the Silicon Valley Trip happen? When will the Winners of the Silicon Valley Trip be announced? What are the next steps after that?

A. The Silicon Valley Trip happens bi-annually in May and November every year. The Winners for the May trip are announced latest by February and the winners for the November trip will be announced latest by August. Once you have got an email and call stating that your kid is a winner, you will have confirm your participation for the trip and then arrange for the Visa/Passport and confirm back to us latest prior to a month of the Trip date so that Whitehat Jr can make your travel and accommodation arrangement
